

Padhmavathy Cebolu Srinivasan

Santa Clara, CA | 440-656-9139 | padhmavathyys@gmail.com | <https://www.linkedin.com/in/padhmavathy-c-s-27839bbo/> | <https://github.com/PadhmaCebolu>

PROFESSIONAL SUMMARY

Data Analyst with 5 years of experience in the financial sector. Skilled in SQL, Python, data visualization, and machine learning. Experienced in CI/CD pipelines and cloud platforms.

EDUCATION

San Jose State University <i>Master of Science: Data Analytics</i>	San Jose, CA Jan. 2023 – Dec 2024
Alagappa University <i>Master of Business Administration: Human Resource Management</i>	Chennai, India Aug. 2019 – May 2021
Sathyabama University <i>Bachelor of Science: Computer Science Engineering</i>	Chennai, India Aug. 2013 – Mar 2017

TECHNICAL SKILLS

Languages: Python, SQL, Linux
Cloud Platforms: AWS (S3, EC2, RDS), GCP (BigQuery, Compute Engine)
Tools: Tableau, PowerBI, Splunk, GitHub, JIRA, Excel, MySQL Server, Salesforce, Fluent Bit
Libraries & Frameworks: Pandas, NumPy, Scikit-learn, Seaborn, matplotlib, Pytorch, NLP, LLM, RAG

EXPERIENCE

Data Analyst May. 2024 – Aug. 2024
Motorola Solutions Chicago, IL

- Developed an AI-powered system to retrieve, summarize, and present Premier One logs using Python, reducing issue resolution time significantly.
- Automated log ingestion to OpenSearch using Fluent Bit and integrated Hugging Face NLP models to generate plain-language summaries for non-technical users.
- Enhanced Salesforce with one-click access to AI-generated summaries and standardized log formats to enable auto-labeling and continuous ML model training.

Business Data Analyst June 2017 – Nov 2022
Capgemini, Synchrony Bank (Client) Chennai, India

- Created Python and SQL-based monitoring and reporting solutions, accelerating incident resolution by 35%.
- Built Splunk dashboards for system performance and risk monitoring.
- Collaborated with cross-functional teams in Scrum calls to align on business goals, track sprint progress, and enhance operational efficiency.
- Delivered month-end metrics summaries, tracked operational KPIs, and supported reporting requests from stakeholders across risk and compliance teams.

PROJECTS

AI-Driven Job Market Analysis and Salary Prediction | *Python, Seaborn, NLP, Data Analysis, Data Visualization*

- Built a salary prediction model using NLP and Random Forest to analyze real-time job data and support HR compensation planning. [Github](#)

Market Alert Bot | *Python, LLM, NLP, Github Actions*

- Automated daily SPX market trend alerts by analyzing financial news and sentiment data, improving reporting efficiency and decision support. [Github-market-Alert-bot](#)
